

SELECTED RELEVANT LGA STUDIES FOR THE FOREST PRODUCTS INDUSTRY

1. Reconstituted Wood Products Potential in the North Central Region, for a U.S. corporate client.
2. Medium Density Fiberboard from bagasse, for a Colombian client.
3. Markets for Softwood Lumber From a Small Log Sawmill, for a West Coast corporate client.
4. Opportunity for Chippers in the Forest Products Industry, for a large machinery manufacturer.
5. Opportunities for Overlaid Particleboard Panels in the U.S., for a Canadian client.
6. A New Sawmill in Georgia, for a U.S. client.
7. Trends Affecting the Canadian Softwood Plywood Industry, for BC Council of Forest Industries.
8. Skyline Logging Equipment Potential, for a major equipment manufacturer.
9. Markets for a Canadian Stud Mill, for a corporate client.
10. Markets for a Western Washington Export Oriented Lumber Mill, for a corporate client.
11. Overview of Particleboard, for the Federal Department of Trade and Industry, Canada.
12. Marketing Feasibility for a New Overlaid Siding, for a U.S. corporate client.
13. Worldwide Marketing Study of Selected Reconstituted Products, for a Canadian corp.
14. Low Ground Pressure Skidders, for a major logging equipment manufacturer.
15. Market Opportunities for Warm Springs Forest Products, a Native American Corporation.
16. Study of OSB Plant in Maine, for a U.S. corporate client.
17. Potential for a New Concept Chain Saw, for a European manufacturer.
18. Opportunities in the Pacific Rim for an Alaskan Waferboard Plant, for the U.S. Forest Service.
19. Utilizing Dead Softwood Timber in Reconstituted Products, for the U.S. Forest Service.
20. Forest Utilization Studies, for Sealaska, a Native American Corporation.
21. Particleboard Markets and a new Western Particleboard Plant, for a U.S. corporation.
22. Marketing Feasibility Study for a West Coast MDF Plant, for a U.S. corporate client.
23. Market Potential in the Caribbean for a Bagasse Particleboard Plant, for a corporate client.
24. A Market Study of the Green Veneer Industry, for a forest products company.
25. The Opportunity for a Medium Density Fiberboard Plant in Canada, for a Canadian firm.
26. Domestic and Export Opportunities for a major paper company.
27. Opportunities for Chemically Treated Wood, for the U.S. Forest Products Laboratory.
28. Potential for an MDF Plant Location in the Southwest, for a U.S. corporate client.
29. An Export Sawmill Using Second Growth Northwest species, for a forest products company.
30. Overview of Exports in Lumber and Plywood, for a forest products company.
31. Opportunities in edge & end (finger-jointed) glued lumber, for a forest products company.
32. A New MDF Plant in New Mexico, for a private utility.
33. An OSB Opportunity, for a client in Eastern Canada.
34. MDF and Particleboard Opportunities, for a client in Western Canada.
35. Future Outlook for Global Timber Harvesting Practices, for a US machinery firm
36. Dust Control on Western Logging Roads, for a corporate client.
37. Planning for Optimal Utilization of a Forest, for a Native American Tribe.
38. Opportunity in Forward Integration, for a wood component parts manufacturer.
39. Potential in Circle Saw Manufacture, for a major tool maker.
40. Opportunities for Industrial Particleboard, for a major southern wood products firm.
41. Market Evaluation of Current Structural Panel Product Quality, for a Canadian client.
42. Opportunities in Laminated Veneer Lumber, for an Oregon corporate client.
43. Potential in Molded Doorskins and Other Molded Fiber Products, for a Canadian consortium.
44. Opportunity for an OSB Plant in British Columbia, for a Canadian firm.
45. Potential for Machine Stress Rated OSB, for a Canadian producer.
46. Markets for Chilean Radiata Pine in U.S. Millwork, for a Chilean firm.
47. Markets for Overlaid Particleboard, for a Canadian producer.

48. Opportunity for a New Paper Overlay Supplier, for a U.K. company.
49. RF Gluing Trends and Markets, for a U.S. equipment manufacturer.
50. Wheeled Log Loaders & Harvesting Equipment Potential, for a U.S. equipment maker.
51. Value Added Sanded Plywood Markets, for a U.S. firm.
52. Manufacturing Opportunities in Solid Wood Products, for an Indian Tribe.
53. Business Feasibility of Free-Standing Chipper, for a U.S. entrepreneur.
54. Fuel Supply for a New Wood-Fired Power Plant, for a U.S. power utility.
55. Laminated Veneer Lumber from Ponderosa Pine, for a U.S. firm.
56. Pacific Rim Markets for MDF, for a U.S. producer.
57. US Markets for MDF, for a Canadian producer.
58. Potential for Laminated Veneer Lumber, for Durand-Raute.
59. Future for Sanded Plywood, for a Canadian producer.
60. Remanufacturing Opportunities, for Indian Intertribal Council
61. Molded Doorskin Markets, for U.S. firm.
62. Forestry Equipment Markets for Specialty Lubricants, for a US firm
63. Wood Products Mill Waste Generation, for a power utility
64. Sawmilling Enterprise, for an Alaskan Indian corporation.
65. Markets for Exotic Hardwood Veneers & Plywood, for a Zaire firm.
66. MDF Mill in the Lake States, for a U.S. firm.
67. Siding Markets for Cementitious Panels, for a Canadian firm.
68. Laminated Veneer Lumber Markets, for a U.S. machinery firm.
69. Domestic Hardboard Market Conditions, for a U.S. producer.
70. Glulam Beam Markets, for a U.S. manufacturer.
71. Polyboard OSB Markets in Asia, for Province of Alberta.
72. Timber Ownerships Accessible to Ports, WA State Port Authority
73. Laminated Veneer Lumber Markets, for a Canadian firm.
74. OSB Mill in California for a U.S. Consortium.
75. Machine Stress Rated Lumber Markets, for an Idaho sawmill.
76. Glulam Beam Markets, for a U.S. firm.
77. Economic Impact of Tacoma Kraft, for Simpson Timber Company.
78. Decision Criteria for Logging & Log Road Construction Machinery, for a US firm.
79. Selling Timber to Optimize State Revenues, for WA State Department Natural Resources.
80. Markets for Hardwood Lumber & Hardwood Particleboard, for U.S. firm.
81. Molded Doorskin Markets, for U.S. firm.
82. Opportunities for Southern LVL, for a U.S. firm.
83. Timber Supply & Markets for Western OSB Mill, for U.S. firm.
84. Brick Markets in the PNW, for a U.S. producer.
85. MDF Markets in Asia for Canadian firm.
86. Laminated Veneer Lumber Outlook, for Durand-Raute
87. Value Added Sawmill Products, for Province of Alberta
88. Value Added Panel Products, for Alberta Research Council.
89. Wood Products Research, for Intertribal Timber Council.
90. Opportunities for OSB in Asia, for a Thai firm.
91. Strategic Planning for a Port, Port of Olympia.
92. Panel Products from Western Red Cedar, for Province of British Columbia.
93. Expanded Opportunities for MDF, for a Canadian producer.
94. Opportunities for OSB in Ontario and Alberta, H. Jager Industries.
95. Markets for Cement/Particleboard Roofing Shakes, for a Canadian manufacturer
96. Opportunities for OSB in Virginia, Huber Corp.
97. LVL Market Potential, Boise Corp.
98. Opportunities for OSB from BC, for a Canadian manufacturer.
99. Opportunities for OSB from Alberta, for a Canadian manufacturer.
100. Opportunities for Fibre/Gypsum from Mexico.
101. Opportunities for MDF from Pennsylvania, Clarion Corp.
102. Opportunities for Particleboard from Alberta, Province of Alberta.
103. Opportunities for OSB from Saskatchewan, Province of Saskatchewan.
104. Veneer for LVL in the US South, for a Dutch investment bank.
105. Opportunities for Softwood Plywood from Finland, for a Finnish firm.
106. Opportunities for Canadian Glulam Beams in Japan and U.S., for Province of Alberta.
107. Potential for Pre-Fabricated Houses in Japan for WA State Dept. Trade & Economic Development.
108. Opportunities in U.S. for OSB from South America, for South American consortium.
109. Opportunities for MDF from Canada, for Province of Alberta.

110. Opportunities in U.S. for OSB from Europe, for a German firm.
111. Potential for Soy Based Adhesives in Selected Wood Industry Applications, for a trade association.
112. Raw Material Costs for OSB, for a European firm.
113. Potential in U.S. and Japan for Softwood Veneer, for an Indian Tribe.
114. Cedar OSB Markets, for a Canadian firm.
115. Applications of wheat straw residues, for a Canadian firm.
116. Niche Markets for MDF, for a Canadian firm.
117. Opportunities in Engineered Wood Products, for a Canadian firm.
118. Markets for a Gypsum/Wood Fiber Underlayment, for a US firm
119. Review of OSB Markets, for Province of Saskatchewan
120. OSB from Paraguay and Venezuela, for a US firm.
121. Markets for Alaskan Spruce Shakes & Shingles, for Kenai Development Corp.
122. Opportunities in Wood I-Joists, for a Canadian firm
123. MDF in Alaska, for an Alaskan state agency
124. Particleboard Markets from Florida and Louisiana Mills, for a private investor
125. Markets for Sliced Softwood Veneers, for a Canadian firm
126. Moulded Doorskin Markets in North America and Europe, for a Canadian firm
127. Markets for Printed MDF, for a Canadian manufacturer
128. Markets for Radiata Pine Glulam Beams, for a Chilean Organization
129. Strategic Decisions for a SYP Lumber Mill, for a Paper Corporation
130. MDF Analysis for a Pulp Company
131. Strategic Decisions for MDF worldwide, for a North American Manufacturer
132. US Markets for Bagasse Particleboard, for a Hawaiian Firm
133. Markets in North America for Wide Belt Sanders, for an Italian Manufacturer
134. OSB Potential for a New Mill, for a US Firm
135. Expert Testimony for Litigation on an MDF mill
136. Expert Testimony for Litigation on LVL
137. MDF from Date Palm Ribs, for an engineering firm (United Arab Emirates)
138. Pricing Solutions for a Wood Fiber firm
139. Expanded Markets for Hardboard Wall Paneling
140. Opportunities for Birch Hardwood Plywood in North America
141. Diversification Opportunities in EWP for a US firm
142. SYP Markets for an Acquisition Due Diligence
143. US & European Opportunities for Central American Hardwood Lumber
144. Markets for Canadian Glulams in North America
145. LVL in The Decade Ahead, to Year 2010, an LGA report
146. Birch Hardwood Plywood in North America & Japan
147. Cedar OSB Markets, for a Canadian firm
148. Hybrid Poplar Lumber Opportunities, for INFOR (Chile)
149. Laminated Strand Lumber Potential, for a Canadian Company
150. Structural Engineered Wood Products to Year 2012, an LGA report
151. Market Potential for TimTek (Scrimber) in North America
152. Market Potential for New Composite Joist in North America
153. Export Market Opportunities for New MDF Mill in Alaska
154. Merger & Acquisition studies for a Canadian firm
155. MDF Markets in Asia from an Alaskan mill, for U of Alaska
156. Expanded New Business Opportunities, for a SYP mill
157. Opportunity for SYP Timbers
158. Value-Added Opportunities for Out-of-Service Power Poles
159. Wood I-Joist Markets, for a Canadian firm
160. Markets for Timtek parallel strand lumber beam
161. Market Potential for Cedar OSB
162. Opportunities for Fire Retardant OSB
163. Evaluation of BC Wood European Marketing Programs
164. Opportunities for Recycled CCA Treated SYP Utility Poles
165. Evaluation of European Marketing Program of B.C. Wood, for FII (Canada)
166. Expanding Douglas fir Timber Markets in the US, for a manufacturer
